
WHAT IS THE STUDY ABOUT?

We are interested in;

- Understanding more about the challenges faced by riders in using protective clothing when they ride
- Understanding more about the benefits riders see in the use of protective clothing
- Understanding more about how riders choose the clothing they wear when riding

WHO IS RUNNING THE STUDY?

The study is being conducted by Neuroscience Research Australia (NeuRA) and has been approved by the UNSW Human Research Ethics Committee.

If you would like more information or would like to participate in the study please do not hesitate to contact **Catherine Ho** on **T: 9399 1848** or **E: c.ho@neura.edu.au**

Neuroscience Research Australia

Margarete Ainsworth Building

Barker St Randwick Sydney NSW 2031 Australia

PARTICIPATING IN THE STUDY

Participation is **completely voluntary**, and participants are free to stop at any time and for any reasons.

If you decide to participate, you will be asked to take part in a 1-2 hour focus group with other motorcycle riders in NSW. Lunch will be provided and you will be reimbursed travel costs involved in attending the focus groups.

The sessions will run at NeuRA in Randwick and other locations in Newcastle and Wollongong. Upon consent, discussions will be audio-taped for the purpose of creating transcripts but the recordings will be permanently deleted once we have finished analysing the data.

HOW WILL WE USE THE INFORMATION WE COLLECT?

The information you provide will not be identifiable back to you. Your participation can help us develop a better understanding of what benefits and challenges the rider experience when using protective clothing, and how to best communicate with riders about protective clothing.

RECRUITING MOTORCYCLISTS IN NSW!

WHAT DO YOU THINK ABOUT PROTECTIVE CLOTHING?

WE WANT TO KNOW YOUR THOUGHTS

ARE YOU AGED 18+?

**HAVE YOU RIDDEN ON ROAD
IN THE LAST MONTH?**

**If you answered 'YES' to the questions
above, you may be able to participate
in our study!**
