

APD CADD Symposium and RACI Bioactive Discovery and Development Group Event

On Friday 1st December, we are teaming up with the **APD CADD Symposium** to host a networking event with a panel discussion on

**“The Future of CNS Drug Development – Driving Translation
with Academia and Industry”.**

Chairing the panel discussion will be **Prof. Jürgen Götz** from the Queensland Brain Institute.

About us: The BDD Group focus is the nexus between research and industry, and aims to provide a regular networking forum for scientists and professionals from academia, industry, research institutes, government organisations, etc., involved in all stages of discovery and development of bioactive molecules.

**Dr. Joseph
Lewcock**

(Denali
Therapeutics, USA)

**Prof. Michael
Kassiou**
